## 1. Qualitative Information

### (1) Consolidated Business Performance

In the Japanese economy during the first quarter of the current fiscal year (April 1, 2017 to June 30, 2017), corporate earnings registered moderate growth on the back of the government's economic policies and the Bank of Japan's monetary easing policies, while personal consumption continued to lack vigor. The outlook, however, remains opaque due to mounting issues of concern on the global political and economic scene and growing geopolitical risks.

Under these economic conditions, the group's results in each business segment were as follows.

#### Precious metal business

Volume of collection in the precious metals recycling business was as follows. In the electronics sector, the volume of collection of gold was larger than the same period a year earlier, thanks to the notable development of new customers in the precision cleaning and plating treatment businesses. In the dental sector, the volume of collection of gold and palladium increased from the same period in the previous year. In the jewelry sector, the volume of collection of gold and platinum expanded from the same period a year before. In the automotive catalyst sector, the volume of collection of palladium and platinum increased from the same period in the previous year. Regarding the average price of precious metals, the average prices for gold, silver and palladium were higher than in the same period a year before, while the average price of platinum was lower than in the same period in the previous year.

As for gold and silver refining business in North America, earnings from commissioned refining business increased from the same period a year earlier, while selling, general and administrative expenses decreased from the same period in the previous year.

#### Environmental preservation business

Although the volume of industrial waste discharged in Japan is on a downward trend in general, the overall volume handled by the group remained almost equal with that in the same period in the previous year, as group companies focused on developing new customers and obtaining contracts by capitalizing on their characteristics and inter-company collaboration.

#### Life & health business

In the health care equipment sectors, overall sales increased from the same period in the previous year, thanks to efforts to expand the sales of large-size massage chairs as the core item and other products including low-style massage chairs and electrolytic hydrogen water generators. As for fire-fighting equipment, business remained equal with the same period a year earlier, thanks in part to strong demand in building construction projects in the metropolitan area.

As a result of the above, revenue during the first quarter of the current fiscal year was 32,476 million yen, a year-on-year increase of 4,675 million yen (+16.8 percent). Operating income was 3,491 million yen, an increase of 845 million yen (+32.0 percent) year-on-year. Profit before tax was 3,402 million yen, a year-on-year increase of 885 million yen (+35.2 percent). Profit was 2,381 million yen, a year-on-year increase of 488 million yen (+25.8 percent). Profit attributable to owners of parent for the period was therefore 2,343 million yen, an increase of 464 million yen (+24.7 percent) year-on-year. By segment, revenue in the precious metal business was 21,884 million yen, a year-on-year increase of 3,514 million yen (+19.1 percent). In the environmental preservation business, revenue was 3,979 million yen, and increase of 110 million yen (+2.8 percent) year-on-year. Revenue in the life & health business was 6,636 million yen, up 1,056 million yen (+18.9 percent) year-on-year.

### (2) Consolidated Financial Position and Cash Flows for the three months ended June 30, 2017

As of June 30, 2017, total assets amounted to 88,760 million yen, down 216 million yen from the previous fiscal year end. This was due mainly to the decrease of 1,371 million yen in trade and other receivables.

Total liabilities amounted to 43,290 million yen, down 858 million yen from the previous fiscal year end. This was due mainly to the decrease of 551 million yen in loans payable.

Total equity amounted to 45,469 million yen, up 642 million yen from the previous fiscal year end. This was due mainly to comprehensive income of 1,610 million yen.

As a result, the equity attributable to owners of parent ratio changed to 50.6%, from 49.8% at the end of the previous fiscal year.

Net cash provided by operating activities amounted to 3,106 million yen due mainly to 3,402 million yen of profit before tax, 583 million yen of depreciation and amortization, 198 million yen of increase in inventories, 1,307 million yen of decrease in trade and other receivables, and 1,919 million yen of income taxes paid.

Net cash used in investing activities amounted to 1,229 million yen due mainly to 1,283 million yen of purchase of property, plant and equipment.

Net cash used in financial activities amounted to 1,499 million yen due mainly to 972 million yen of cash dividends paid.

As a result, cash and cash equivalents as of June 30, 2017 increased 432 million yen from March 31, 2017, to 11,230 million yen.

### (3) Consolidated Performance Forecasts

The company revised the first half period consolidated financial forecast, owing to precious metal prices exceeding our initial estimates, and collection volume of precious metals is expected to exceed the initial plan.

## (6) Notes on Assumptions for Going Concern

Not applicable

## (7) Notes on Condensed Consolidated Financial Statements

### 1. Reporting entity

Asahi Holdings, Inc. (hereinafter the “Company”) is a company located in Japan. The Company’s condensed consolidated financial statements for the three months ended June 30, 2017 comprise the financial statements of the Company as well as its subsidiaries (the “Group”).

For the main activities of the Group, please refer to Note 5. “Segment information.”

### 2. Basis of preparation

#### (1) Statement of compliance with IFRS

The condensed consolidated financial statements of the Group have been prepared based on IAS 34 “Interim Financial Reporting.”

Having met the requirements for a Specified Company under the Designated International Accounting Standards, as prescribed in Article 1-2 of the Ordinance on the Terminology, Forms, and Preparation Methods of Quarterly Consolidated Financial Statements (Cabinet Office Ordinance No. 64 of 2007), the Group adopts the provisions of Article 93 of the aforementioned rules.

#### (2) Basis of measurement

The condensed consolidated financial statements of the Group have been prepared based on costs of acquisition, except for the specified financial instruments that have been measured at fair value.

#### (3) Functional currency and presentation currency

The condensed consolidated financial statements of the Group are presented in Japanese yen, which is the functional currency of the Company, and figures less than one million yen are rounded down to the nearest million yen.

#### (4) Early adoption of new standards

The Group has implemented an early adoption of IFRS 9 “Financial Instruments” (published in November 2009, and revised in July 2014), as from the date of transition to IFRS

### 3. Significant accounting policies

The significant accounting policies adopted for the condensed consolidated financial statements are the same as those for the consolidated financial statements for the fiscal year ended March 31, 2017.

### 4. Significant accounting estimates and associated judgments

In preparing condensed consolidated financial statements, the management is required to make judgment, estimates and assumptions that affect the adoption of accounting policies and the amounts of assets, liabilities, revenues and expenses. Actual results may differ from such estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. The effect of a change in accounting estimates is recognized as the accounting period in which such change occurs as well as the accounting periods to be affected in the future.

The estimates and judgments made by the management that may have material impacts on the figures in the condensed consolidated financial statements are the same as those for the consolidated financial statements for the fiscal year ended March 31, 2017.

## 5. Segment information

### (1) Overview of reporting segments

The Group's reporting segments are those Group constituent units for which separate financial information is obtainable, and which the Board of Directors subjects to regular examination in order to decide the allocation of management resources and evaluate business results.

As a pure holding company, the Company is in charge of overall strategic function for the Group, whereas operating companies of the Group engage in the precious and rare metals recycling business and the refining and processing business, industrial waste management and other environmental preservation business, and life & health business including manufacturing and selling of health equipment.

Therefore, the Group is composed of product and service segments based on business sectors. The three reporting segments are the precious metal business, the environmental preservation business, and the life & health business. Meanwhile, these reporting segments are not be aggregated.

The precious metals business engages mainly in recycling and selling of precious and rare metals such as gold, silver, palladium, platinum, and indium, as well as refining and processing of precious metals such as gold and silver. The main work of environmental preservation business is the collection, transport and intermediate processing of industrial waste. In the life & health business, the main work is the manufacture and sales of massagers, hearing aids, and other health equipment, the manufacture and sales of electric heaters, the design and installation of radiant heating and air conditioning systems, and the design and installation of disaster prevention equipment.

### (2) Segment revenue and performance

Accounting policies of the reporting segments are the same as those for the consolidated financial statements for the fiscal year ended March 31, 2017.

Revenue and other performance of each reportable segment of the Group are as follows.

For the three months ended June 30, 2016 (from April 1, 2016 to June 30, 2016)
